Re: The Wednesday Evening Educational Program at the Medical Clinic

Hello all,

Here it is our upcoming sessions with additional details and a slight change in schedule:

We are really excited about two upcoming series of talks and the address is across street of our Clinic: North Toronto Christian School – 255 Yorkland Blvd, North York, ON M2J 1S3

- 1) One is on clinical psychopharmacology as geared to GPs & FPs. This will be lead by Joel Shapiro (MD, FRCPC). More details below.
- 2) The Second Series will be lead by me. It will be an historical overview of Freud's discoveries (or are they inventions?). For the first couple of sessions I will share about 45 minutes of the DVD (movie) "Young Dr. Freud". This is presented as a "history of ideas" series rather than as an official clinical session. I have some training in psychoanalytic ideas (see below*) but I am not practicing as a psychoanalytic psychotherapist.
- 3) Food will be served (\$10.00). For doctors here, there is no charge.
- 4) Please RSVP if you will attend and if you will also be having dinner.

Date	Time	Topic	Speaker
April 3 rd 2013	7:30 to 9:00PM	Clinical Psychopharmacology Antipsychotics – A Review of Drugs Released in the Past Decade	Dr. Joel Shapiro
